Elastik

## Real-time assessment marking with personalised and contextual feedback.

Writemark is used by educators to mark English handwritten or digital responses, in real-time to drastically reduce administrative burdens associated with marking.

### Here are some of our latest feature optimisations

Upload handwritten activities to be instantly marked by Writemark's AI. Writemark ensures consistency and saves teachers significant time.

1

You can create custom writing prompts using AI to share with your colleagues and students.

2

Instant data insights can be viewed through the lens of a class, cohort or individual student to inform teaching and learning.

3

### We asked some of our customers to share one positive experience of Writemark with us...

**So much easier** to moderate their writing, we love the ease and speed of the marking! Lachlan Zubevich, Primary School

The **engagement** and **excitement** of the students on the topics!  
Julie Freeman, Primary School

The writing analysis within Elastik is **massivley improving** the feedback I give to students.  
Travis Carrick, Primary School
